Auctioneers, PERTH

Telephone: PERTH 783-4

Telegraphic Address: "FRASER, PERTH"

CONDITIONS OF SALE

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase (subject to Article 3)—each offer exceeding the former by at least one guinea. All entries must be clearly tattooed in the ear with their correct tattoo letters and numbers in accordance with the Regulations of the Shorthorn Society, and any animal found not being so tattooed will be reported to the Directors of the Scottish Shorthorn Breeders' Association, and such animal may be rejected from the Show and Sale. Twins must be so described, also whether twin with a bull or heifer.

2. The pedigree of each animal is guaranteed to be correct and registered or accepted for registration in Coates' Herd Book by the person whose name appears as the Exposer, but every animal is sold subject to all faults otherwise, with the exception that if a bull has only one Testicle down, the Owner must make intimation to this effect in the Catalogue. No liability whatever is undertaken by the Auctioneers for the statements appearing in the Catalogue or made at the Sale. The Exposer who supplies such statements is alone responsible for any error or mis-statement. Animals affected with any disease of an infectious nature or animals out of an infected Herd are strictly prohibited from being brought to the premises occupied or used by the Company at the time and should any such be brought, the Owner or Consigner will be held responsible for all damage or loss occasioned thereby.

3. The Exposers reserve the right to fix a reserve price, and to announce same before the bidding begins or during the time of the bidding or at the conclusion thereof. The right to bid by or on behalf of the Seller in terms of the Sale of Goods Act, 1893, is expressly reserved. Every animal must be the *bona fide* property of the Exposer at the time of Sale.

4. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

5. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the Sale thereof. Lots shall only be removeable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevis manu* by the Auctioneers.

6. Should any buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum*

per Annum and for the keep of, and any other expense incurred by them in connection with such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

7. If any animal be sold with the option to "Test," such condition shall not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Sale Roll.
- (b) The option to test shall only operate in the case of bulls realising 75 guineas or over, and females realising 50 guineas or over. The Purchaser may require the Intradermal or Subcutaneous Test for Tuberculosis. The Purchaser may also require the animal to be submitted to an Agglutination Test for Contagious Abortion at a Laboratory approved by the Ministry of Agriculture, and to a test for John's Disease with the biological product known as Johnin. Notice in writing of the intention of the purchaser to carry out such tests must be given to the Auctioneers before, or immediately after, termination of the Sale.
- (c) The test shall be made by a Veterinary Surgeon to be mutually chosen between the Buyer and Seller or, failing their agreement, to be chosen by the Auctioneers.
- (d) The test or tests shall only be made when the animal is (in the opinion of the chosen Veterinary Surgeon) in a fit state for testing. The time for testing shall be limited to three weeks after Sale, with power, however, to the Auctioneers to extend the period of testing from time to time if they, after hearing the chosen Veterinary Surgeon, deem such extension reasonable.
- (e) The declaration of the chosen Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Seller and Buyer.
- (f) If the animal be so declared not to have passed the test, the Buyer shall have the right to require the Seller to re-purchase the animal at the price of the original sale. Such requisition shall be notified in writing to the original Seller, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to him.
- (g) In any case where the option to test is exercised, the Auctioneers shall be entitled to retain the price until the result of the test is declared.
- (h) The expense of any such test or tests shall be borne by the Purchaser.

8. Should an Exposer wish to warrant a bull as being a good server and stock-getter or such other qualified warranty as the Exposer may wish to give, such warranty shall be included and shall form part of the description of the bull as shown in the printed Catalogue. Should a warranty of good service and stock-getter be given, and should it be established subsequent to the Sale that the bull is incapable of service, or while capable of service is incapable of getting stock, a Purchaser shall be entitled, within sixteen weeks from the date of the Sale, to intimate such incapacity to the Vendor, and if such incapacity shall be proved by a Certificate of a Veterinary Surgeon mutually chosen, the Vendor shall be bound to accept delivery of the bull and refund the Purchaser the full purchase price of the bull. To establish a Claim under this condition, the Purchaser must give notice of his claim within sixteen weeks of the Sale. Should the Purchaser and Vendor not agree upon the appointment of a Veterinary Surgeon to examine the bull, the Auctioneers shall appoint a Veterinary Surgeon for this purpose and shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid. In his Certificate the Veterinary Surgeon must state that he has examined the bull, that its impotence or incapacity is not due to injury suffered or illness contracted since the purchase, and that he has also examined the cows or heifers upon which the bull has been tried and found them in a normal breeding state or condition, and he shall give his reasons for declaring the bull ineffective and incapable of getting stock. Notwithstanding the right of the Purchaser to return the bull to the Vendor on the ground of impotency or incapacity, the Vendor shall in no case be liable under this condition for a sum exceeding the amount for which the bull was sold (plus any expenses which may be awarded by the Auctioneers against the Vendor in terms of this paragraph) less its saleable value at the date of the Veterinary Surgeon's Certificate. In respect of bulls purchased for export, no claim under this Article shall be valid unless made prior to the shipment of the bull or within sixteen weeks of the Sale, whichever is the earlier date.

It shall be understood that this guarantee does not operate where a bull from an Attested Herd is sold to go to Non-Attested Premises.

9. All females born after 1st August, 1955, must be certified to have passed the Agglutination Test for Contagious Abortion within three months of date of Sale, or must have been vaccinated. The blood samples for the Agglutination Test must have been taken by a Veterinary Surgeon and submitted by him to an approved laboratory. Animals having passed the test must not, prior to the Show and Sale, come into contact with any animal that is known to be infected with Contagious Abortion. The entry of any animal which has not passed the Agglutination Test but which has been vaccinated, can only be accepted providing that one of the following certificates (signed by a Veterinary Surgeon) is supplied:—

- (a) That the animal was inoculated with Br. Abortus Vaccine No. 1 (Strain 19) when between four and eight months old and within three years of date of Sale, or

- (b) That the animal having passed the Agglutination Test was then vaccinated within fourteen days with Br. Abortus Vaccine No. 1 (Strain 19) when over eight months old and within three years of date of Sale, or
- (c) That the animal having been previously vaccinated in accordance with either (a) or (b) was re-vaccinated within three years of the previous vaccinations and not more than three years prior to date of Sale.

10. All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of Sale, or stated as having been running with a bull between dates (the later of which is not less than twelve weeks before date of Sale), will be guaranteed to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of Sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed. All claims which may be competent under this Condition must be intimated to the Auctioneers within sixteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animal or within the said period of sixteen weeks whichever is the earlier date. To establish any claim under this Condition the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement a Veterinary Surgeon shall be appointed by the Auctioneers. In his Certificate the Veterinary Surgeon must state that the condition of the animal was not due to any injury or disease contracted since the Sale. Should a claim be established and made as a result of the Veterinary Surgeon's Certificate the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid.

11. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

12. If any dispute—other than (a) a dispute or question relating to the conduct of the Sale and (b) a dispute for the settlement of which provision has been made in terms of these Conditions—shall arise regarding any Shorthorn animal registered in Coates' Herd Book and sold at this Sale, such dispute shall be referred to the Council of the Shorthorn Society of Great Britain and Ireland as sole Arbiters for settlement, and the decision of the Council shall be final and binding on all parties to the dispute.

13. Private Sale. Each animal entered in the Catalogue must be offered for sale by Auction before any private sale shall be allowed or recognised by the Auctioneers. The usual commission must be paid on all animals afterwards sold privately within the premises of the Auctioneers.

14. Without prejudice to the foregoing Conditions of Sale it is hereby expressly declared that the Exposer by selling and the Purchaser by purchasing any animal in terms of the Conditions of Sale shall be bound by the above Conditions of Sale and shall be bound, where a dispute is referred to a Veterinary Surgeon, to accept the verdict or decision of the Veterinary Surgeon as final and binding on both Exposer and Purchaser. Neither party shall have any recourse to law in respect of said dispute otherwise than on the ground of fraud.

15. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.

THE BEAUFORT HERD

AN APPRECIATION

THE herd requires no introduction, for it has been breeding quality cattle since the Scotch Shorthorn was first inscribed in Coates' Herd Book, but, for the benefit of new Breeders, at home and overseas, the following brief note may be of some interest.

Beaufort goes back to the days when Champion of England was consolidating the greatness of Sittyton, and the story begins when, in 1868, the Broadhooks and Undine heifers, both by Champion of England, were purchased by the present owner's grandfather. It is interesting to know that the Actresses, celebrated at Bapton (see Bapton Umpire), descended from a branch of this family, and the bull, Beaufort Broadhooks Champion, held the record price ever attained at Perth until 1920. History has a way of repeating itself, and a descendant in the direct line of breeding still holds the world record for Pittodrie.

There are other famous pedigrees, notably the Queen of Rothes and Lancaster tribes, which have bred successfully and without a break in the herd for nearly a century. From the Queen of Rothes family, backed by the great bull, Knickerbocker, and Royal Star, such notable sires as Knight of Collynie, Cupbearer of Collynie, and his son, Millhills Rothes King, are descended.

Space does not permit a detailed account of each tribe, but mention should be made of the famous Clipper family, descended from the great Newton stock bulls, Cornerstone and Star of Morning. In a recent letter, that shrewd judge of cattle, Mr. John Blume, Manager of the famous Marellbar Herd, U.S.A., wrote:—"Your Lancaster and Clipper cows are doing a wonderful job out here; in fact, they dominate the herd." At neighbouring Edellyn and Ringwell, descendants of Beaufort Bulldozer and his full sister, Beaufort Orange Blossom, have won championships on no less than three occasions in recent years at the Chicago International.

The Princess Royals have also stood the test of time, producing in recent years such great sires as Beaufort Royal King, Royal Salute, Royal Monarch, Royal Prince, and Beaufort Royal Hawk, who made Shorthorn history in Ireland, while Beaufort Benbow and Beaufort Brisket are top sires in Canada and South Australia. The famous Uppermill show cows, Princess Maude and Princess Minerva, both female champions at National Shows, also stem from a Beaufort cow of this family.

To mate with these females, the late Lord Lovat used the best bulls of the day, with the emphasis on a concentration of Naemoor blood. From that herd, Naemoor Ian and two sons of Naemoor Jasper—Little Loch Broom and Glas-tullich Sudan—proved outstandingly successful.

To come to recent times, the present owner has concentrated on the blood lines of the late Mr. A. J. Marshall, of Cruggleton. During the period 1939 to 1950, over thirty heifers by Cruggleton Perfect, Willingdon, Assheton, and Annexe were obtained privately or at Public Auction, while four sires of Marshall breeding, each with a concentration of Cruggleton Perfect blood on both sides of their pedigrees, have been used in the herd.

The extended pedigrees of Cruggleton Pentland Firth and Cruggleton Guthrie, together with their sons, Beaufort Bulldozer and Cruggleton Pirret, and a grandson, Beaufort Commodore, and Burnton Bankbook, can all be studied at the end of this catalogue.

This year, at Perth, Lord Lovat purchased Glamis Pioneer, 1st in his class, junior champion, and reserve supreme champion. This beautiful young bull carries Cruggleton Perfect on both sides of his pedigree, as well as the best Beaufort blood through Corrimony Golden Sovereign. Another recent purchase has been Banchory Notorious, bought in 1957, and used as an out-cross during one season in the herd for his great bone and substance. He was then sold privately for a high figure to Canada.

While there is no yardstick by which to measure the ideal Shorthorn, or words to describe it, Lord Lovat chose Cruggleton Perfect as his model, not only for conformation and character, but as the best breeding bull he has met in a wide experience.

Every effort is being made to live up to the Marshall precepts of raising hardy and improving cattle, while the importance of size has never been lost sight of. Whatever mistakes have been made at Beaufort, the pony type of bull, favoured by passing fashion, or cattle with black noses, fine bone, and flinty horns, have never been included in the programme.

This policy has paid handsome dividends. At the Perth February Sales during the past five years, 34 Beaufort calves have grossed 50,069 guineas, giving an over-all average of 1472 guineas for each animal sold. These figures do not take into account any bulls sold privately off the farm. It should be mentioned in passing that the best young bull this year was held back for use in the herd, while a 1st prize winner was withdrawn at Perth in February, and subsequently sold for a high figure to Australia—two facts which reduce the herd average for 1958.

Among Breeders who regularly supply good cattle to the Perth Sales, the following are using Beaufort stock bulls, viz.:—Anick, Ballechin, Balbithan,

Belgard, Burnton (from Aldie), Chalmerston, The Cairn, Duncrahill, Islay Bank, Kair, Kybo, Kentwyns, Lavington, Lawton, Morphie, Pittodrie, Saltoun, and the Glasgow Corporation at Brackenhurst.

The commercial and feeding side of the Beaufort Shorthorn has not been forgotten. Sons of Pentland Firth have won championships at Smithfield and Edinburgh, while Beaufort bulls, mated with the commercial herd of hill cattle, produce some 500 calves annually for Lovat Hill Farms. These are sold as calves in the back end, or as yearlings in the Spring. They invariably make high prices, 294 calves in April grossing £17,068, with a top of £127 for a pure-bred Shorthorn steer. In an inter-breed progeny test held in the United States this year, sons of Beaufort Barony and Beaufort Bouncing Boy won top honours in daily weight gains against an entry of 1300 competitors.

Turning to the show-ring, Beaufort entries have won all the principal awards. During recent years, the male and supreme championships have been won at the Royal Highland Shows at Edinburgh and Inverness; the Casares Cup for the junior champion bull at the Royal Highland Show has been won twice, while the Bullrich Cup for the best pair of cattle, male and female, bred by Exhibitor, has been won outright for the first time in history. These awards carry the Blue Ribbon, being the most important events of their kind in the country.

Although the Beaufort Herd has not been exhibited at the English Royal Show since winning the supreme championship, female championship, and reserve male championship at Lincoln, entries of Beaufort breeding continue to catch the Judge's eye wherever shown.

At the local Shows—the Northern Counties', Keith, Nairn, and Black Isle—where good cattle are always forward, the Beaufort entries have swept the boards, and, as this goes to press, a Beaufort bull has been made supreme champion at the Inverness Show, which, both as regards quality and numbers, provides the best turn-out of bull calves at any centre in the United Kingdom.

Before you read up the pedigrees of the Stock Bulls, one last word on sale conditions:—All the re-tests will be given, and in the case of unserved yearling heifers, these will be kept on by the vendor, if required, until they are safely in calf.

The tribes actually represented are as follows:—Augusta, Broadhooks, Blythesome, Bright, Butterfly, Clipper, Dorothy, Goldie, Jilt, Lavender, Mabel, Orange Blossom, Princess Royal, Queen of Rothes, Rosewood, and Secret.

BEAUFORT CASTLE HERD DRAFT SALE

The following animals are bred by The Rt. Hon. Lord Lovat, D.S.O., M.C., T.D.,
unless otherwise stated.

The annual Tuberculin Test was last carried out on 25th to 28th April,
1958, and was 100% correct.

For Reference to Sires — see end of Catalogue.

Agglutination Test for Contagious Abortion on 13th August, 1958—Result, Indefinite.

THE DRYNIE HERD

THE Drynie Herd of Pedigreed Scotch Shorthorns was founded in 1910, and has long been recognised as a herd where high-class, sound, and improving stock can be obtained, great care having been given to the purchase of the foundation females.

The herd has been attested for some years, and the cattle have proved themselves to be great thrivers at home and overseas.

The Rosewoods came from Colonel Smith Grant, Minmore, Banffshire, and from this family has been bred Drynie Roland, champion on several occasions at the Toronto Show in Canada. The original Floss, obtained from Calrossie, was by Collynie Royal Leader, and a full sister to Calrossie Satisfaction. The original Butterfly was Cambus Moth, of Balnakyle stock, tracing back to Auchnacree Moth, who was sold for 950 guineas at Aberdeen. The Queen of Rothies family traces back to Beaufort. Perhaps the best representative has been Drynie Roister, sold to Mr. John Millar, who, at that time, described him as one of the best bulls in Canada. The Broadhooks family also traces back to Beaufort, and the original Secret was purchased from Mr. J. A. C. Falconer, Camsden Manor, Gloucestershire, being bought as a calf at five days old for £500. The Augustas come from Mr. Antony Morrison, Fingask, Fraserburgh; the Brawiths from Mr. Jameson, Watherson, Ellon; the Nonpareils from Mr. J. E. Kerr of Harviestoun, and the original Rosebud was bought as a calf for £350 at the Aberdeen Sale from Mr. MacWilliam, her dam being Radiance, one of the best cows ever seen. The original Clipper was bought at Mr. Alexander's Sale, and she was probably the best daughter of the famous Collynie Clipper King. Three Princess Royals were originally bought—Cambus Princess Royal at Mr. Alexander's Sale at Cambus, Stirling (a grand-daughter of the famous Princess Roberta); Naemoor Princess Royal 3rd, the dam of Beaufort Royal Prince, and Garbity Princess Rose, at Mr. MacWilliam's Garbity Sale.

Probably the good white bull, Naemoor Immaculate, proved himself to be the greatest bull used in the herd. Among his successful sons were Drynie Warden, sold to the Argentine; Drynie Royal Oak, 1st prize winner at the 1947 International Livestock Show, U.S.A.; and Drynie Wonder, used with such success in the herd of Dr. House, Willow Lee Farms, U.S.A.

The Sale comprises the entire herd.

TESTS

The whole herd is attested. The single Intradermal Comparative Tuberculin Test was carried out on the Drynie cattle between the 3rd and 6th March, 1958, by Mr. James Stuart, M.R.C.V.S., Conon Bridge, with negative results.

All females, with the exception of the heifer calves born after 1st March, have been inoculated with Br. Abortus Vaccine (Strain 19) between the ages of 6 and 8 months.

All animals have been subjected to the Agglutination Test for Contagious Abortion, with the exception of calves born after 1st January, 1958, and every animal has been subjected to the Complement Fixation Test for Johne's Disease. Results will be available on day of sale.

Buyers are asked to satisfy themselves on tests, etc., as this is a Dispersal Sale, and animals are not sold subject to re-tests. Any animals bought for export can be taken back to the farm, where they can be kept free of charge up to 5th November, 1958. Thereafter, buyers will require to make their own arrangements.

DRYNIE HERD DISPERSAL SALE

The Property of

The Trustees of the late Captain R. Maclean, Drynie,
North Kessock, Inverness-shire.

The following animals are bred at Drynie unless otherwise stated.

The annual Tuberculin Test was last carried out on 3rd to 6th March,
1958, with negative results.

This being a Dispersal, there is no warranty given with these animals, but all
particulars in the catalogue are correct to the best knowledge of the Trustees.

For Reference to Sires — see end of Catalogue.

Bought privately for 4000 guineas, Pentland Firth (a full brother to Cruggleton Bonn) bred with great success for three seasons in the herd, after which he went to Duncrahill at a very high figure. His sons include Beaufort Bulldozer, sold at 5000 guineas; Beaufort Broadstairs, sold at 4300 guineas; Beaufort Blackthorne, Bartender, and Breakwater, all sold for 2000 guineas; and Beaufort Benbow, Bogoak, Blackstone, Billboard, and Barony, who all made high prices, and have proved themselves successful stock bulls at home and overseas.

In the 1951 Draft Sale, his heifer calves averaged 400 guineas, and many of the best cows retained in the herd are by him.

In the show ring, Pentland Firth was 1st and reserve champion to Calrossie Welcome (also out of a Cruggleton Perfect cow) at the Royal Highland Show, Dundee. He later won championships at Keith, Turriff, and other local shows. His sons have won championships at Smithfield and Edinburgh.

(2)

Blossom 6th

Sold to Edellyn Farms for 5000 guineas. Bulldozer is recognised as the top sire in the U.S.A., where his progeny made Shorthorn history in 1954 by winning the male, female, supreme, and reserve supreme championships at the Chicago International Show. Calves by Bulldozer have continued to win wherever shown, and at the 1956 annual Edellyn Draft, his heifer calves sold at prices up to 5500 dollars (£1978). At the Edellyn Dispersal this year his sons sold to 1500 dollars, while a daughter topped the female sale at 4500 dollars.

Bulldozer, who himself was never beaten in the show ring in this country, was unfortunately only used for one season in the Beaufort Herd. He was top sire at Perth in 1955—five of his sons have given an average of £3706, namely Beaufort Brave Baron, sold to the Argentine for 3400 guineas; Beaufort Brisket, sold to Australia for 3600 guineas; Beaufort Borderer, sold to Argentina for 1850 guineas; Beaufort Commodore, sold to the U.S.A. for 5900 guineas, but subsequently retained; and Beaufort Chevalier, sold to Aldie for 2900 guineas.

Cruggleton Orange Talisman, who died of old age in 1956, was the best cow in the herd, and probably anywhere else! Her first calf, Beaufort Blockbuster, sold to the Argentine for £1250; her second calf, Beaufort Bremen, sold to the Argentine for £1600; her third calf, Beaufort Orange Talisman, a winner at the Royal Show, sold for £1230 to the U.S.A., where she has become the mother of many champions; her 4th calf, Beaufort Boludo, reserve junior champion at Perth, was sold to the Anderson Brothers for £4200; her 5th calf, Beaufort Butcher Boy, sold to Australia for £500; her 6th is a heifer, which has been retained in the herd; her 7th calf was Beaufort Bulldozer; her 8th calf died; her 9th calf, Beaufort Combine, sold to South Africa for £3000; and her 10th calf is a beautiful heifer, who figured prominently in the prize list at the Royal Highland Show at Inverness in 1956, was female and supreme champion at the Black Isle Show in 1958, and female and reserve supreme champion at Nairn in 1958.

Note the concentration of Cruggleton Perfect blood in this pedigree.

(3)

BEAUFORT COMMODORE (396125),, Dark Roan.

Calved 18th August, 1953.

Bred by the Rt. Hon. Lord Lovat, D.S.O., M.C., T.D.,

		160484 Rheola Blythesome

Beaufort Commodore, sold at 5900 guineas, was champion at the Northern Counties and Black Isle Shows, and winner of the Casares Cup for the best junior bull at the Royal Highland Show at Dumfries in 1954. In 1955, he was champion at Nairn, while in 1956 he was supreme champion at the Royal Highland Show at Inverness, and at Keith. Sold to Mr. Israel Sieff in 1957, he won championships at the Three Counties', Royal Counties, and Bath & West Shows. Although sparingly used in the herd, three of his calves at Perth in 1958 averaged 1016 guineas, the highest price being 1800 guineas for Beaufort Constrictor to Major Henderson, Lawton.

Doris Blythesome was bought as a heifer for 650 guineas at the Marshall Dispersal, and won 1st prize at the Northern Counties' Show on the only occasion she was shown.

Again note the concentration of Cruggleton Perfect blood.

(4)

CRUGGLETON GUTHRIE (381896), M.A.J. H.7., Red Roan.

Calved 16th April, 1950.

Cruggleton Guthrie, a full brother to Cruggleton Godwin, stock bull at Cluny, was sold to Edellyn Farms, U.S.A., at the Marshall Dispersal Sale for 4000 guineas, and was used in the Beaufort Herd before flying to the U.S.A.

His sons include Cruggleton Pirret, sold for 4400 guineas; Beaufort Crossbow, a 1st prize winner at Perth, and sold to Ballechin for 3700 guineas; and Beaufort Cuptie, a prize-winner at Perth, and at the Royal Highland Show at Edinburgh, sold to Saltoun for 4300 guineas. In 1955, Cruggleton Guthrie stood second in the list of successful sires.

(5)

CRUGGLETON PIRRET (391887), M.A.J. K.100, Red Roan.

		210611 Princess Cloe

Cruggleton Pirret, a prize-winner at Perth in 1953, was the last Marshall-bred bull to enter the ring, where he made 4400 guineas, the second highest price of the Sale. Used for two seasons in the Beaufort Herd, his first four calves sold at Perth in 1955 won four prizes, including two 1sts, and sold for an average of £2000, while his white Augusta heifer sold for 700 guineas (top price for females), as well as gaining a 1st prize ticket. In 1956, two more calves sold well, and they were both bought for stock bulls for the well-known herds of Balbithan and Kentwyns. In the interval, Pirret was sold at a high figure to Mr. R. E. Smith of Texas, U.S.A.

		210271 Calrossie Goldie
		Scotston Viking 292181
		121187 Gartly Princess Royal 12th

Burnton Bankbook, 1st and supreme champion at Perth, was bought for the Beaufort Herd at 7300 guineas, in 1954.

After a year at stud, and in only fair condition, he was pulled out to win the supreme championship at the Royal Highland Show at Edinburgh in 1955—a very creditable performance. His work has not again been interrupted, and Bankbook is breeding exceptionally well—his heifer calves being quite outstanding.

At Perth in 1956, Burnton Bankbook's name figured in the list of successful sires—his first crop of calves averaging 1013 guineas, while in 1957, at Perth, four of his calves averaged 2075 guineas.

(7)

		272396 Cluny Pauline 73rd
		Pittodrie Supreme 346443
		262690 Calrossie Princess Pam

Beaufort Cyclotron is by Beaufort Commodore—see Reference to Sires (3). The Pamela branch of the Princess Royal family has bred some outstanding cattle in recent years, including Beaufort Cuptie, Covenantor, and Breakwater, all selling for high figures, while Beaufort Custodian, 1st prize bull in the late March class at Perth in 1958, and subsequently sold to Australia for four figures, is of the same family. Princess Pamela, a winner at the Royal Highland Show at Inverness in 1948, was also reserve female champion at York, when shown as a young cow. Cyclotron has been used extensively in the herd, and, in spite of being brought out in lean condition, has been successfully exhibited at the local shows, as well as being 4th in a strong class at the Royal Highland Show at Ayr in 1958.
